

Wireless PowerG Carbon Monoxide Detector PG8913

(Applicable to Europe & Africa)

Features That Make a Difference:

- PowerG* robust, industry leading commercial grade wireless technology
- Electrochemical sensing technology
- Visual and audible alarm indicators upon CO detection
- Fully supervised
- Built-in 95db alarm buzzer and large flashing LED
- Long-life lithium batteries included
- Compatible with PowerSeries Neo Systems

The power of PowerG*:

The power behind PowerSeries Neo lies in various innovative technologies, including the revolutionary PowerG, which, bundled together, provide a robust and feature-rich platform designed to reduce operational costs for dealers and provide ultimate reliability for end users.

- Multichannel, Frequency Hopping Spread Spectrum technology - to overcome frequency blocking and interference
- Adaptive Transmission Power - for battery life preservation
- High transmission ranges - for reliable communication within up to 2km/2187 yards line-of-sight
- TDMA synchronized communication technology - to prevent message collisions
- 128 bit AES encryption - high level protection against analysis tools and digital attacks

PG8913 Wireless PowerG Carbon Monoxide Detector

The PG8913 Wireless PowerG Carbon Monoxide Detector is designed to provide reliable front-line protection against the silent threat of carbon monoxide poisoning. Leveraging the most innovative technology, the WS8913 is equipped with a sophisticated electrochemical sensor to provide accurate detection of CO gas levels and initiates an alarm via the security system before dangerous CO levels are reached.

Easy Installation

With minimal installation time required and few holes to drill, the PG8913 Wireless Carbon Monoxide Detector reduces on-site time, increases productivity and revenue. The compact design, battery power and wireless capability of this detector offer home and business owners more choice in where they may be installed, to include locations in which wiring is difficult or impossible.

Specifications:

Dimensions: 127 x 40 mm (5 x 1.6 in)

Battery Life: 1 year (typical use)

Battery Type: 9V alkaline battery

Weight: 180 g (6.35 oz)

Operating Temperature: -10°C - 55°C (14°F - 131°F)

Approvals:

CE, EN

Please refer to www.dsc.com for the most current approval listings.

Product varies depending on country.

Compatibility:

PowerSeries Neo Systems

PowerSeries Neo is Security Redefined

PowerSeries Neo by DSC redefines intrusion security by combining the flexibility of a modular, hardwired system with the simplicity of a wide range of wireless devices and peripherals, resulting in the most comprehensive hybrid system available in the market today.

This brand new and exceptionally flexible platform leverages the superior capabilities of PowerG – the industry's leading-edge wireless intrusion technology. Innovative alarm verification solutions, together with an exceptionally comprehensive remote service software suite, make PowerSeries Neo the ideal first-class solution for residential and scalable commercial installations.
